Mr/mohamed Fawzi

Paragraphs

daily routine

My name's Huda. I live in the second floor of the new block of flats with my dad, mother, grandma and two brothers. I always get up at 6 o'clock on a school day. My mother always makes my breakfast. I walk to school with my two brothers. My father goes to work at 7:30 am. He works in a school. Sometimes I walk to school with my father. I never go to school late. We usually have lunch at five together. In the evenings, I do my homework. I often play chess with my grandma before I go to bed. I study hard for my exams. I often listen to music. We often go to the park at the weekends. I like to play on the grass there.

My bedroom

. I live in a flat with my family. It has got two bedrooms, a dining room, a kitchen and a living room and a bathroom. It's in a big city. Our flat is very comfortable. My bedroom has a big window with curtains. When I open the curtains, the room is very bright with sunlight. My bed is under the window. I have a wardrobe in front of the bed. I put my clothes there. There is a mirror next to the wardrobe. There's also a lamp next to the bed. The bathroom is next to my bedroom. It's big. It has a nice basin there.
In the evenings, I like to read in bed or watch TV. Sometimes I sleep with the curtains open.

”My penfriend

Today , I'm going to talk about my penfriend. I have apenfriend from England His name is John. He is thirteen years old. He is very nice and friendly. He tells me about his daily routine. His daily routine is the same as mine. He gets up at 6:30 every morning. His school starts very early so he goes to school without having breakfast with his family. He has his breakfast at school in “ breakfast break”. His favourite subjects are maths and science. Kevin will visit Egypt for the first time on the next summer holiday. I hope to see him soon.

A job you like

There are many interesting jobs. I think the doctor's job is the most important one. He or she helps us get better after being sick. I look forward to becoming a doctor one day to look after the sick and to try to find out the reason for that. He always looks after ill people and tries to find out why they are ill or what hurts them. If a doctor understands their illness, he gives them the right medicines to feel better. A good doctor usually makes sure that all people feel healthy. The nurse's job is

as important as she helps doctors and patients. They are truly angels. We have to work hard to have the jobs of our dreams.

What makes a hero

A hero is someone who can show courage when they face a problem.
A hero is a person who is able to help the others in many ways. A person can become a hero by saving someone who is in danger. Another example of a hero is someone who is there to help others to go on through difficulties of life. A hero can be someone who gives up their life so that others could live. A hero does not always have to show courage, he can be afraid, but still be a hero through his other actions. A hero can be a teacher. He can teach you to read or write and that will make a big difference in your life. That is a hero to me, someone who makes a difference in a person's life.

Someone I'm proud of

Of all the members in my family, my mother is the person 1 am proud of. She is 40 years. She looks much younger than her age with short hair and a beautiful face. She works hard. At work, she is respected by all of her friends. She is a useful person in society. My mother always does the housework well. She is a very good cook. I really admire her for her wonderful dishes. She often spends her free time cooking delicious dishes for us, which makes everyone in my family happy. What's more, my mother is an excellent adviser. I always love her and I will always be proud of her.

how life used to be different in ancient Egypt

Life in Ancient Egypt was different to today. Poor children didn't use to go to school. Children from rich families used to start school when they were about seven. Children used to enjoy playing games. When older parents died, they used to leave their houses to the sons.
The Ancient Egyptians used to leave jewellery and furniture inside their houses to the daughters. They lived around the Nile River where they could grow crops. They built pyramids. You can still see these pyramids today. They knew a lot about maths, medicine and farming.

A historic place you visited

I visited one of the greatest historic places in India, the Taj Mahal in Agra. I went there with my mum and dad. It is very huge in size. I studied about the Taj Mahal at school, I also saw its pictures. But watching it with my eyes was like a dream that came true. It was built by Shah Jahan around 1630s. He built it as a gift to his wife, Mumtaz Mahal. This history made it more interesting. It took around 22 years to build. People think that Shah Jahan cut off the hands of the workers who built it so

that no similar building could be built. Therefore, this is one of the most awesome historic places.

To : Basmala
From : Rahma
Subject : A story I read
Dear Basmala,
Greetings! How are you and your family? I hope you all are in good health. I'm very happy to write this email to you. I like reading very much. I read a story by Frances Hodgson Burnett. It's called A Little Princess. It's about a small girl whose father died and she became poor. She was in a boarding school. The headteacher made her a servant, but Sara behaved well like a princess. I recommend this story to you. It's really fantastic. I look forward to hearing from you.
Write soon.
Yours,
Rahma

Random acts of kindness

It's important to do random acts of kindness.The smallest things can make others smile. I think that if you do something kind to someone, they will take that act of kindness and move it to people they come across during their day. It's the smallest things that make the biggest differences. For example, holding the door for someone who has their hands full or smiling at a stranger as they pass by, these little things let people know that someone cares about them. Today, before you go to bed, do a random act of kindness. It can be to someone you know or someone who is a complete stranger, but it has to be random. Someday you will receive a random act of kindness in return.

To : Paul
From : Nader
Subject : My home city
Hello Paul,
How are you? I'd like to tell you about my home city, I come from a beautiful city called Hurghada on the Red Sea. First of all, it's very green and has many beaches and mountains. My home city is not polluted and the people are very friendly. It also has a small city centre area and you can find many shops and restaurants, for example sea food restaurants and supermarkets. My home city is on the coast, so there are many boats and ships. You can see turtles there. There are many fishermen around, so you can eat many kinds of cheap fish. It's very hot in the summer and warm in the winter. There are many parks and museums in my home

city. Many tourists visit my home city in the winter time because it has lovely weather. You should come and visit it one day.
Write soon.
Nader

Recycling

Recycling is important in today's world if we want to keep this planet clean for our future grandchildren. It is good for the environment because we are making new products from the old products which aren't used anymore. Recycling begins at home. If you are not throwing away any of your old products and instead reusing them for something new, then you are recycling. Recycling can benefit your community and the environment. It helps in reducing air and water pollution. Try to buy products that are made from recycled materials. There are some examples of paper, metal and plastic. Before throwing anything, think about how to reuse it.

Climate change

Climate change means the change in the world's climate and temperature. Climate change is causing different kinds of unusual acts in the world's climate. It is the most discussed topic at the moment all over the world. There are many causes for climate change. Firstly, global warming is the main reason for it. Secondly, environment pollution is the main reason for climate change. Thirdly, cutting down trees is another cause of the problem. Climate change causes rise in temperature, floods, drought and ice melting which will seriously affect farming and all living things. We should reduce the bad results of climate change. Planting trees can reduce global warming. We should stop using bad chemicals which can reduce environmental pollution.
